A retirement plan offers a convenient way to save for retirement and often provides unique features and benefits not available elsewhere. Individuals have the opportunity to make the plan work harder for them by committing to consistent savings early, taking full advantage of the tools and services available, maintaining a long-term investment strategy, and understanding how the plan works, including plan investment choices and fees. This document was prepared to aid you in that understanding.

### Investment Information

The information below is provided to help you compare the Investment Choices under your Plan. Total Annual Operating Expenses reduce the rate of return of each Investment Choice.

If you want additional information about your Investment Choices, including principal risks, current investment performance and a glossary of terms, Transamerica participants may go to: [transamerica.com/portal](https://transamerica.com/portal) or call 1-800-401-8726.

**Table 1** below focuses on Investment Choices that do not have a fixed or stated rate of return, and shows fee and expense information, as well as investment performance for each choice and an appropriate benchmark performance (shown in *italics*). Past performance does not guarantee how the Investment Choice will perform in the future. Your investment in these choices could lose money.

The cumulative effect of fees and expenses can substantially reduce the growth of your retirement savings. Visit the Department of Labor's website for an example showing the long-term effect of fees and expenses at [A Look at 401\(k\) Plan Fees \(dol.gov\)](https://www.dol.gov).

Fees and expenses are only one of many factors to consider when you decide to invest. You may also want to think about whether investing in a particular Investment Choice will help you achieve your financial goals.

**Contract Asset Charges:** CACs are calculated based on the total assets for each Participating Employer and the actual amount deducted from, or credited to, a participant's account is based on the total account balance for each Participating Employer. These charges may be used to subsidize costs for plan-related recordkeeping, administration, payment to financial advisors, and other retirement plan services that would otherwise be charged separately.

The annual CAC percentage is assessed on a Monthly basis. As of July 15, 2024, the annual CAC percentage was 0.58% for your individual Participating Employer as of the date shown above. As the value of the assets in the Plan change, the CAC may decrease or increase on a Monthly basis according to the rate schedule in the Contract anywhere between 0.52% - 0.58%. For specific information, please contact your Plan Administrator.

**Surrender Charges:** Depending on the specific underwriting of the Contract, upon total or partial discontinuance of the Contract, an asset-based surrender/discontinuance charge may apply for a limited number of deposit years. Please contact the Participant Call Center at 1-800-401-8726 for specific details.
